

Is Wisdom a Lot of Language?

*"For a long time men have plucked letters
Out of the air, and shaped syllables.
And out of the syllables came words
And from the words came phrases, clauses.
Sentences were born — and languages.
(The Tower of Babel didn't work out —
It came down quicker than it went up.)
Misunderstandings followed the languages,
Arguments, epithets, maledictions, curses,
Gossip, backbiting, the buzz of the bazoo,
Chit chat, blah blah, talk just to be talking,
Monologues of members telling other members
How good they are now and were yesterday,
Conversations missing the point,
Dialogues seldom as beautiful as soliloquies,
Seldom as fine as a man alone, a woman by herself
Telling a clock, 'I'm a plain damn fool.'"*

ALMA MATER

As loyal sons and daughters,
We raise our voices on high,
Singing praise and pledging our honor
To raise her colors up to the sky.

To be loyal to her traditions,
Keep her standards shining and bright,
So let everyone from
LIVINGSTON
Hail "Green and White."

DEDICATION

Carl Sandburg, familiar to thousands with his imposing figure and snowy shock of hair, started his literary career in the twenties as a journalist. His rise to fame as a poet began with his *Chicago Poems* and the Pulitzer Prize-winning Lincoln biographies. He fused a homely wit with his musical instinct to produce *American Songbag*, a collection of American folk songs which resurrected an up-to-then forgotten art. Sandburg was himself a mellow-voiced minstrel who communicated his ideas not only to the elite and the educated, but also to those of humble birth and limited learning. Unpretentious and sensible, Sandburg "loved the people of the earth,

the family of man." Our uncrowned poet laureate undeniably captured the homespun flavor of American culture and still remains unequalled as the scribe of American ideals. His peaceful death at the age of eighty-nine on July 22, 1967, meant for the American people a sad parting with a vigorous man who loved all aspects of life, both grand and basic. The mirrors of his thought — poems of deceptive simplicity and folksongs praising innocent pleasures — will continue to have meaning for coming generations. His message of compassion and love creates a medium of communication understood by all peoples.

*The people is Everyman, everybody.
Everybody is you and me and all others.
What everybody says is what we all say.
And what is it we all say? . . .*

*When shall we all speak the same language?
And do we want to have all the same language?
Are we learning a few great signs and passwords?
Why should Everyman be lost for words? . . .*

*Over the ether crash the languages.
And the people listen . . .*

... In the naked light I saw

ten thousand people maybe more.

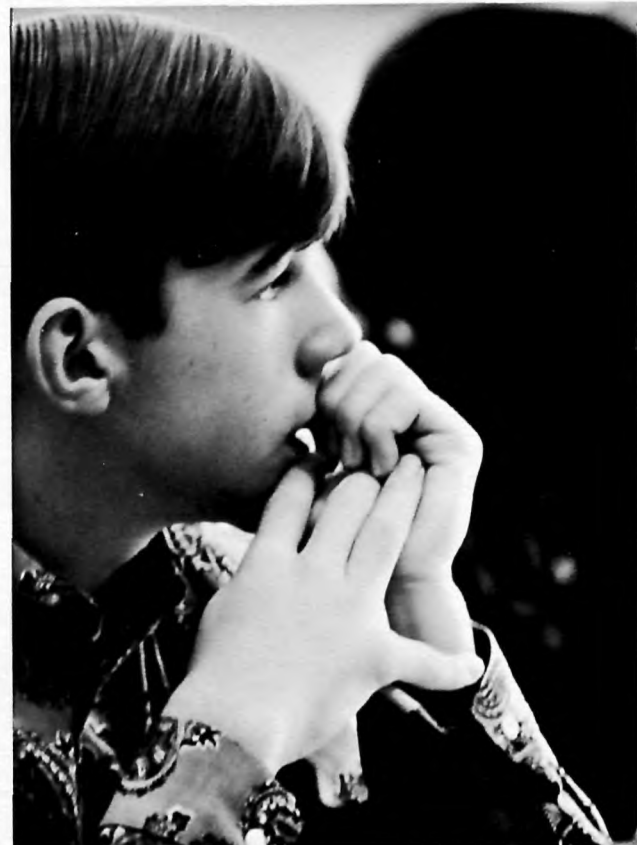

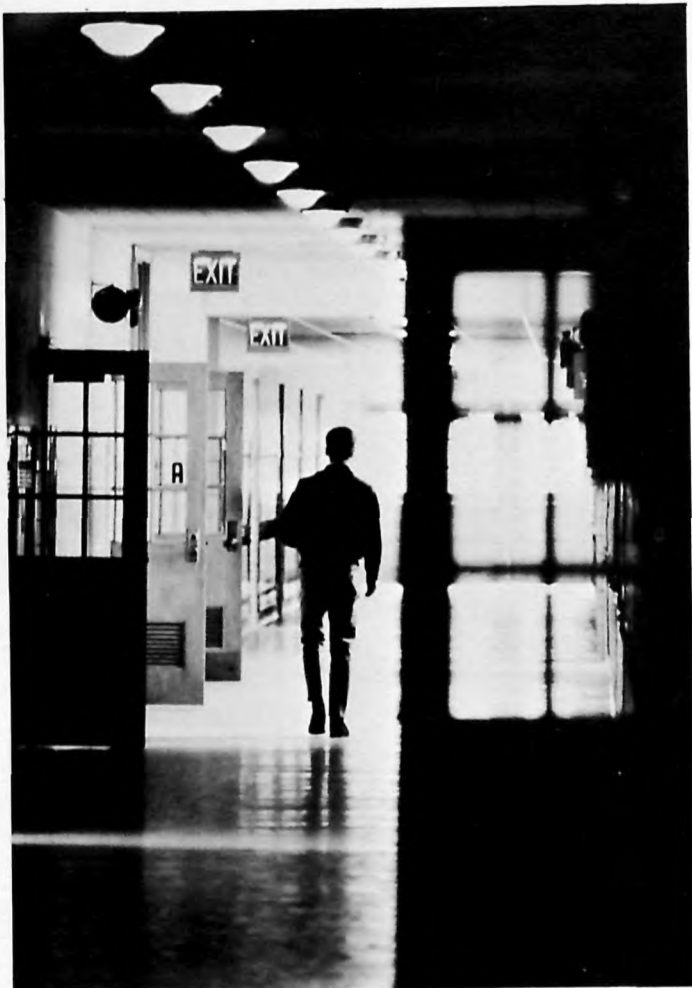

People talking without speaking,

people hearing without listening.

People writing songs that voices never shared,

no one dared

Disturb the sounds of silence.

"Fools," said I, "you do not know,

silence like a cancer grows.

Hear my words that I might teach you,

take my arms

that I might reach you."

*But my words like
silent
raindrops
fell*

And echoed in the wells of silence.

PRINCIPAL'S MESSAGE

Too often, in our quest for better communication, we forget that it is a two-way process. Not only must there be an exchange in expression of ideas between people, but there must also be a mutuality in listening. Of all the lost arts, that of listening needs most to be revived. We cannot reason together; we cannot understand each other; we cannot learn unless we listen perceptively, attentively, and respectfully. Good conversation, great speeches, effective negotiation, and fine teaching are no better than their effect upon the listener toward whom they are directed, so that the listener becomes, after all, the essential party in all communication. All of us,

faculty, students, parents, and community would do well to listen to each other at all times and thereby, I am sure, establish valuable lines of communication.

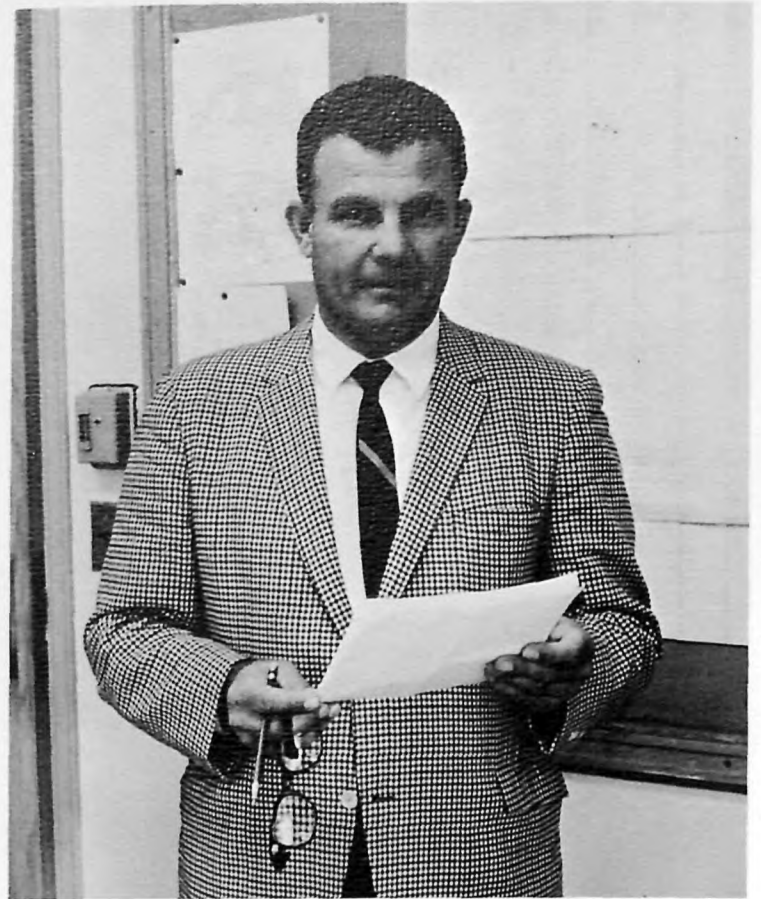

Come back and visit us after you've been away at college or on the job, and tell us what you have experienced. I promise you — we'll listen.

SENIOR CLASS PRESIDENT'S MESSAGE

Crossroads '68 is a composite of our years at L.H.S. which represents many happy personal memories for each of us. This is our time to reflect how quickly the years have passed and judge ourselves according to what we have learned.

We have now completed the first major stepping stone in our educational and vocational pursuits. The education we acquired through our dedicated teachers and the achievements we have attained will have a lasting impact on our lives.

After leaving L.H.S. and completing our preparation for various fields of endeavor, I am certain that we will contribute greatly to our business, professional, and civic communities. It has been a privilege to be of service to the class. The success of our senior year activities can be attributed to the active participation and cooperation of all the class members.

I wish you all the success in the attainment of your goals.

Danny
